

# EXPORTING IMAGES FOR CLUB COMPETITIONS USING PHOTOSHOP

---

1. EDIT YOUR IMAGE ANY WAY YOUR DESIRE.

2. 'EXPORT' YOUR IMAGE

From the MENU: Choose- **[Export] [Export As...]**

3. COMPLETE THE DETAILS IN THE 'EXPORT' DIALOG.

a) Format = **JPG**

b) Quality = **Excellent** (or Good, High)

c) Enter **Image Size** that must not exceed w1920 x h1080pixels.

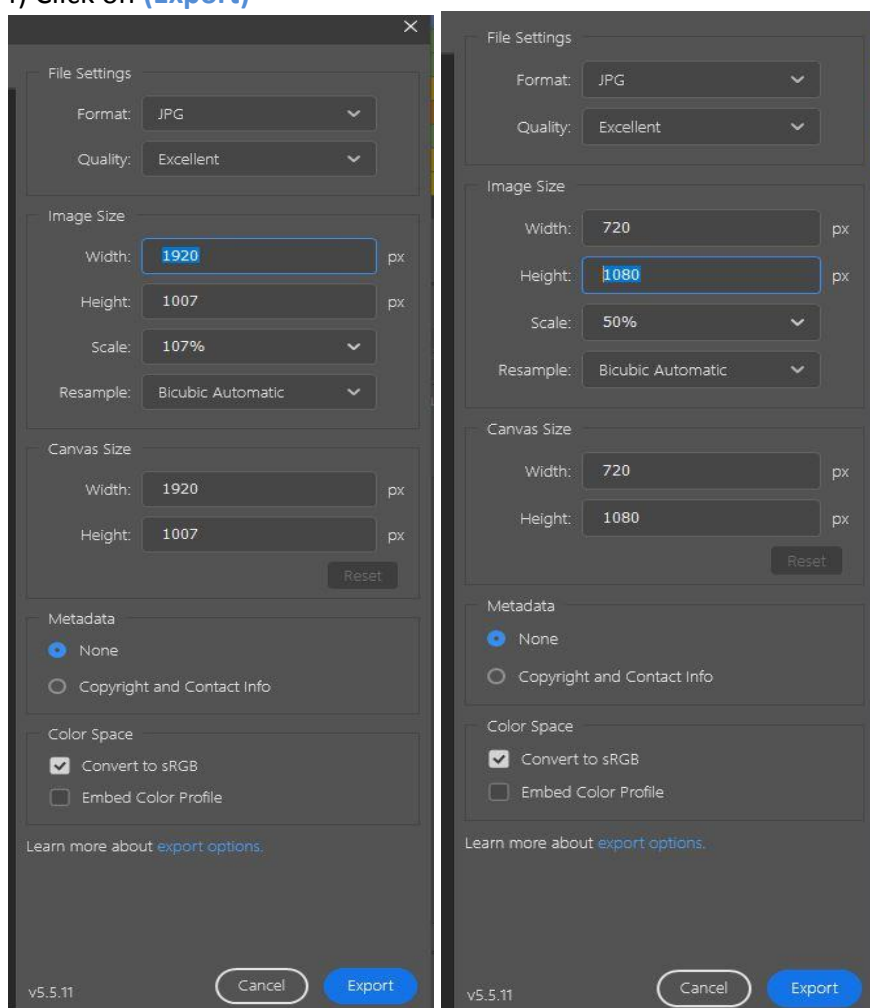

\*Enter ONE dimension, press [Tab], then check that the other does NOT exceed the limits-

If Limits are exceeded- Change either W or H and [Tab] again until dimensions conform to fit within the limit requirements. Ignore [Scale].

d) Resample = [Bicubic Automatic]

e) Check the Box for [Convert to sRGB]

f) Click on **(Export)**

#### 4. CLOSE YOUR IMAGE IN THE EDIT WINDOW- Press [Ctrl+W]

Photoshop will ask you if you want "SAVE CHANGES" to the image file-

I recommend **answer 'YES'..!**

Because, YOU DO WANT TO PRESERVE A .PSD or .TIF version of your image file that retains all editing, including Layers. This 'Photoshop' file (.PSD or .TIF ) can always be re-opened with editing and layers fully restored at 100% quality, ready to edit further (and Export again as a JPG if wanted ! )
